

**They've mastered safety
on the highway.
Where did they go to
succeed on the
information superhighway?**

They went to Bentley College. Managers identified as future leaders of Volvo Cars attended a seminar designed specifically for their company by our faculty experts — “Strategizing for Doing Business in the Information Age.” From e-business and customer-focused management to global financial analysis and trading in our on-site Trading Room, real-world topics demonstrated Bentley’s leadership in business and technology. It’s the same state-of-the-art education our students receive every day. In just two days, we helped Volvo Cars accelerate in today’s technology-driven world. Imagine the impact Bentley can have on your career. Log on or call 1/800/5BENTLEY.
