

NASDAQ[®]

When Nasdaq[®] was in the market for an educational partner, where did it go?

It went to Bentley College. Bentley was one of only four schools selected for

Nasdaq's Premier Partnership Program, which helps train tomorrow's entrepreneurs and financial leaders. "Bentley graduates are way ahead of the curve, both as individual investors and industry professionals", said Alfred R. Berkeley, Nasdaq Vice Chairman, who invited Bentley's President to be the first college leader to ever open the Nasdaq market for the day. Indeed, the technology that has helped drive the market to new highs is the same technology our students learn from and apply every day. Call Bentley at 1/800/442-GRAD or visit our web site to find out how it can benefit your career as well.

BENTLEY COLLEGE

**The Business School
for the Information Age**
